## **PARKER, CO. ELECTRIC VEHICLE MANUFACTURING COMES TO COLORADO.**

S.T. Tripathi today announced that Electric City Motors North America has been issued a State of Colorado Manufacturing License. Electric City Motors will now move forward with North American manufacturing of its one of a kind electric highway vehicle, the Current, and will have dealers in Colorado and Florida very soon.

The Current has passed the highway crash test in order to be approved for highway driving. This vehicle will travel up to 75 mph with a 0-60 speed of 4.9 seconds. When you drive this car it will feel like you have the power of a V-8 under the hood.

This is a 4-door front wheel drive sedan with: driver and passenger air bags; air conditioning, heating system, and power locks all as standard equipment. The Current will also come in the following colors: white, red, light blue, dark blue, yellow, black, silver, and green. Customers will be able to upgrade to leather interior if ordered.

A complete charge of this electric vehicle will take a maximum of 1-2 hours and provide up to 200 miles traveling time. With most people traveling 29 miles or less commuting to work, this vehicle will provide transportation for the week without having to recharge. The investment to charge this vehicle is only 2(two) cents per mile compared to an average 35 cents per mile investment with the average gasoline powered vehicle. In simpler terms, the average person spends 18 times more to drive their present vehicle.

Zero maintenance cost and zero emissions from the Current are two of the major benefits of owning this vehicle in addition to the fuel cost savings. Also, owners of this vehicle can say goodbye to the thousands of dollars in depreciation they incur as soon as they drive their gas-powered vehicle off the dealer lot.

The Current, with air conditioning, will retail for \$28,995. Vehicles will begin arriving in 90 days and deposits are currently being taken at Colorado Auto Connection in Parker, Colorado.

For more information or dealer inquiries please contact S.T. Tripathi at 303.646.8810 or toll free 1.866.899.8810.
